The insurance business plays a key role in strengthening the country's economic and social systems as it helps to ensure the security of the lives and properties of the people as well as to alleviate financial difficulties arising from a variety of risks to member of the society, It also supports the expansion of trade and investment and is a major source of savings for the country.

## The Office of Insurance Commission (OIC)

Is an independent insurance regulatory agency. The OIC operates in accordance with the policies set by the Insurance Commission with the following vision and missions:

1. To provide supervision and oversight of the insurance industry for stability, competitiveness, and good governance.
2. To promote and develop insurance systems for sustainable growth in accordance with future changes and trends.
3. To build knowledge and understanding and instill good values in the use of insurance systems for sustainable growth in accordance with risk management, as well as to protect the public rights and benefits for fair treatment by insurance.

## Quality Policy

"The OIC is committed to providing good service with speed and accuracy to protect the public."

Quality Management Systems certified to ISO 9001:2015

## Vision

"The Office of Insurance Commission is a leading organization that prides itself on good governance and high level of business agility, using technology and data as key tools in the integration of work in order to build confidence and value, and allowing the insurance system to be utilized effectively in risk management."

## Contact the OIC

The OIC has public service departments for insurance-related matters, servicing both central and provincial areas.
